

Technical Specifications

TASMAN BENCH

FEATURES

The Tasman Bench is ideally suited for harsh coastal environments. Made from composite recycled plastic legs and either Envire or DuraComp bench slats it will withstand the salty sea air destructive of so much outdoor furniture, and can be supplied with marine grade stainless steel fixings if required.

The Tasman Bench is part of the Envire range of park furniture that is used throughout Australia, because it is

- Durable and long lasting
- Tolerant of extreme climates, particularly wet or saline conditions
- Resistant to rot, termites and other pests
- UV resistant, does not fade or crack
- Flat packed to reduce freight costs
- Easy to assemble with clear instructions
- Great value for money

RECYCLABLE

Integrated Recycling's (IR) Envire range of patented composite recycled plastic is manufactured in Australia from recovered agricultural plastic films and other recycled plastics combined with organic fibre. Integrated Recycling gives plastics a second life so that waste no longer means landfill. By purchasing the Envire range you are truly recycling.
