

# Wave Seat

## PRODUCT SPECIFICATIONS

Envire®  
PARKSCAPE

### FEATURES

The Wave Seat is a variation of the classic bench that can be loved and enjoyed for longer now that it is made from Australian recycled plastics with galvanised fixings as standard or stainless steel fixings as an option.

The Wave Seat is part of the Envire range of park furniture that is used throughout Australia, because it is:

- Durable, tough and long lasting
- Tolerant of extreme heat, moisture and saline conditions
- Resistant to termites, rot, water damage and sun damage
- UV resistant, does not fade, crack or split
- Delivered as flat pack - economic freight costs
- Easy to assemble - comes with clear instructions
- Great value for money

### RECYCLABLE

Integrated Recycling transforms Australian waste plastics into Polyentisilite® our patented formulation from which we make our range of recycled plastic products.

Integrated Recycling views waste plastic as a resource to upcycle so waste no longer means landfill.

At the end of our furniture's life the recycled plastic can be recycled and repurposed over and over. By purchasing the Envire range you are participating in Australia's circular economy.
